Presents

Dual Diagnosis IOP & PHP

A unique comprehensive dual diagnosis program.

Monday through Friday

9 A.M. - 12 P.M., IOP

9 A.M. - 2:30 P.M., PHP

5:30 P.M. - 8:30 P.M., IOP

Our programs are designed to assist people with emotional and/or substance abuse issues to achieve their highest level of functioning in the community. A combination of methods is used to help individuals learn how to better manage their illness and to improve their relationships with others. Structure and support are provided to encourage this learning to take place. A multidisciplinary team will provide treatment to adults 18 years of age and older utilizing evidence based practices. We will assist you in discharge planning to continue treatment into the next level of care.

Most all insurances accepted
