

Financial Programs

Chicago Lakeshore Hospital is a free standing psychiatric facility whose focus is to provide affordable, quality healthcare for everyone. We have developed financial programs to help you get the care you need. If you currently are uninsured *or* if you have insurance and have had difficulty paying off your balance, you may be eligible for one of our programs:

Option 1: Discounted Care Program – this program offers discounted care based on family size and income, as well as other criteria.

Option 2: Interest Free Payment Program - extended payment options can be arranged through this option, when it is difficult to pay your balance off with a single payment.

Option 3: Prompt Pay Discount Program - if you do not qualify for our other financial programs, through this option a discount can be offered to the hospital bill of all eligible individuals.

Patients are required to cooperate in securing all third party resources before Discounted Care determination will be made. Participation in any of our programs is based on the eligibility of the individual.

If you are interested in any of our financial assistance programs or to find out if you qualify, please contact the Business Office at:

773-907-4561 or 773-907-4525.
