Chicago Lakeshore Hospital (CLH) provides crisis stabilization for acute behavioral and psychiatric disorders. CLH also provides a broad continuum of services for adults with addiction issues, including alcohol, chemical or drug use. Our multi-disciplinary team works with the patient, family, significant other or job to create a plan of care designed to meet the patient's individual needs. We believe a team approach is the most effective method to deliver quality care:

- Board Certified Psychiatrists
- Licensed Therapists
- Psychiatric Nurses

## Addiction Services

Our treatment experience provides the patient with a safe and structured therapeutic environment. The treatment team's focus is helping patients regain control over their lives with an emphasis on the development of healthy self-management strategies and aftercare plans. Our continuum of care includes inpatient hospital programs, medical detox, residential treatment and intensive outpatient programs.

## Outpatient Services

CLH has two outpatient centers and offers direct admission into programming or follow-up treatment following an inpatient stay. Both centers offer similar programs, though each also has its own, unique treatment options. Please call 800-888-0560 or go to [www.chicagolakeshorehospital.com](http://www.chicagolakeshorehospital.com) for more information.

## Discharge Planning:

Discharge planning is an integral part of an effective treatment plan and begins shortly after admission. Aftercare plans may include

## Inpatient Services

- Art, Movement, Activity and Recreational Therapists
- Social Workers
- Certified Alcohol & Drug Counselors (CADC)
- Mental Health Counselors

## Treatment Programs

### Adult Intensive Treatment Units (ITU)

The ITU provides a safe, respectful and therapeutic environment for patients in psychiatric crisis. After a comprehensive assessment, the multi-disciplinary treatment team's focus is stabilization and assisting the patient in determining recovery goals in order to return to a normal routine as quickly as possible.

### Older Adult Program

The Older Adult Program specializes in the stabilization of mood, thought and neuro psychiatric disorders in senior patients, 60 years and older. Our specially trained staff provide care geared to the needs and interests of these patients in a private, secure, comforting, and healing environment.

## Additional Services

referrals and recommendations for meeting a patient's specific needs including family and/or individual therapy, medication monitoring, self-help and support groups, Intensive Outpatient Programs, Partial Hospital Program and assistance with safe housing.

### Admission Process:

Chicago Lakeshore Hospital is open 24/7. An initial assessment will be provided at no cost and if admission is recommended our trained intake department can facilitate that process, including insurance verification and or pre-certification.

*Call 800.888.0560 24/7 for crisis intervention, assessment and referral service.*
